

## What It Is

Come on in  
I'll start some tea  
Stay awhile  
And talk to me

Tell me 'bout  
Your point of view  
Where we're going  
And what we've left to do

Well, I get up each morning  
Go to work each day  
And then I wonder  
Where the time flew away  
Got to get to what it is  
I'm going to

Heard about  
Your little trouble back home  
(Heard about it now; heard all about it now)  
Crazy Billy never knew  
When to leave it alone  
(No he didn't, no, no he didn't, no, no, he didn't know)

How's your Pa  
Is your sister well?  
(Is your sister well)  
You can tell 'em  
They can all go rot in hell

'Cause I got out this morning  
Got to make a fresh start  
I've been living  
My life in park  
Got to get to what it is  
I'm going to  
Got to get to what it is  
I'm going to

'Cause I get up each morning  
I go to work each day  
Then I wonder  
Where the time flew away  
Got to get to what it is

I'm going to  
Got to get to what it is  
I'm going to  
Got to get to what it is  
Yeah!
